

Reports	
<ul style="list-style-type: none">  Blood Sciences  Microbiology  Blood Transfusion  Histology  Immunology 	Microbiology, Blood Transfusion, Histology, and Immunology reports all work in the same way.
<ul style="list-style-type: none">  Microbiology 	In this example we will select Microbiology
	A list of reports will display, select a report to view it in the pane on the right.
 <p>The screenshot shows a user interface for viewing reports. On the left, there is a list of reports with a filter set to 'Show last: 6 months'. The list includes 'MRSA screen' (Requested: 08-Feb-2020 09:10) and 'Faeces' (Requested: 29-Jan-2020 11:30). The 'MRSA screen' report is selected and highlighted. On the right, the details for the 'MRSA screen' report are displayed, including the request date (10-Feb-2020 13:06), collection date (08-Feb-2020 09:10), and the requester (HUNT, David C). A 'Final' report date of 11-Feb-2020 10:19 is also shown.</p>
