

INTERNAL CLINICAL REFERRALS – ACCESS

Internal Clinical Referrals are managed within the Bamboo platform.

Users can access a patient’s previous and existing internal referrals that have been raised within this platform, from either the Affinity Clinical Portal or the Panda Clinical Portal.

Accessing Affinity

Double-click the **WSHT Applications** folder on your desktop

The **File Explorer** window displays:

Double-click the **Affinity Portal** row

The **Affinity Homepage** window displays:

Once you have found by search or selected your patient from a list, click on that patient’s **Clinical Referrals** tab

Your patient’s previous and current Referrals display:

Accessing Panda

Double-click the **BSUH Applications** folder on your desktop

The **File Explorer** window displays:

Double-click the **Bamboo** row

The **Bamboo Menu** window displays:

Click on the **Panda** icon

The **Panda** window displays:

Once you have found by search or selected your patient from a list, click on that patient's **Referrals** tab

its MUSE ECGs Referrals Data Forms

its MUSE ECGs Referrals Data Forms

Your patient's previous and current Referrals display:

Referral Form Name	Status	Created Date/User	Last Updated Date/User	Notes	View
Neils Test Referral Form TEST.	Pending Review	25/06/2025 10:42:22 BSUH\Neil.Thomas	25/06/2025 10:42:22		
Urology - Trial Without Catheter (TWOC) Referral Form V2 (RSCH-PRH)	Pending Review	19/06/2025 14:13:02 SUSSEX\CodeT	19/06/2025 14:13:02		

See the **View an Internal Clinical Referral** guide for further details. There is also a guide for **View Your Internal Clinical Referrals**, should you wish to view all the ones you have raised as opposed to within a patient's Affinity or Panda page.
