<p>The patient's Surgical window now opens.</p>																									
<p>Use the left hand side menu, click Build Op Note</p>  <p><i>Do not use Operation Note!</i></p>	 <p>Click OK to continue.</p>																								
<p>The Diagnosis Tree pop up will appear. This is based upon the patient's primary procedure.</p> <p>Either right-click and Select or double click the Diagnosis.</p> <p>We can also right click and have options to Add, Edit & Delete Diagnosis.</p>																									

Click on **Save & Close** to save the Diagnosis.

Use the left hand side menu, click **Build Op Note** once again.

Date	Code Type	Clinical Code	Qty	Description
31/05/2019	ICD-10	S63.1	1	Dislocation of finger
31/05/2019	OPCS	W22.2	1	Primary open reduction of fracture of bone and external fixation HFQ
31/05/2019	OPCS	W29.1	1	Application of skeletal traction to bone NEC
31/05/2019	OPCS	W65.3	1	Primary open reduction of fracture dislocation of joint NEC
31/05/2019	OPCS	Z83.4	1	Proximal interphalangeal joint of finger
31/05/2019	OPCS	Z94.2	1	Right sided operation

The **Coding** window appears.

Click **Confirm Codes**.

New Operation Note Document appears.

Click **Free Text Document**.

The **Operation Sheet** opens and will have pulled through some information already.

The Procedure you see is the Procedure text within the patient's Surgical window and laterality.

Free type into the document fields as required.

Note: This document will only be editable for 24 hours after you create it.
