

Viewing Patient Demographics

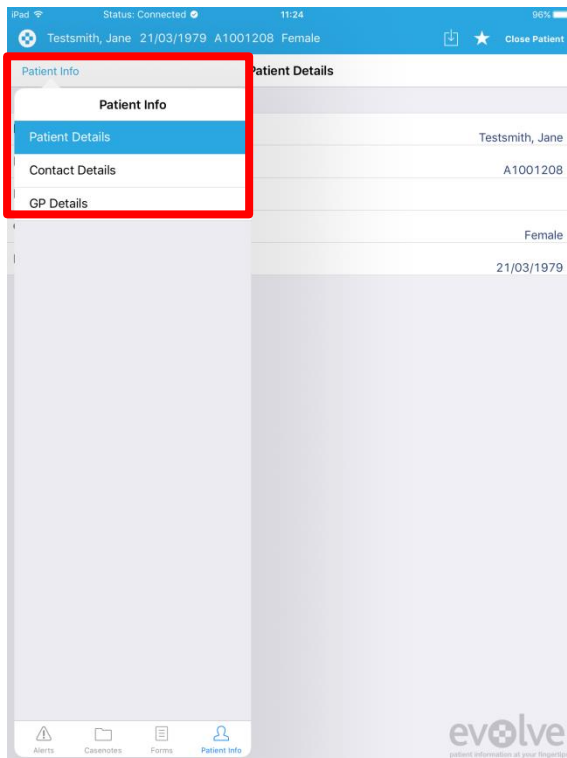

1. Using one of the search criteria's from above, select the patient
2. Along the toolbar you will see the patients:
 - **Surname, Forename (1)**
 - **Date of Birth (1)**
 - **Hospital Number (1)**
 - **Sex (1)**
 - **Download records to Briefcase to view offline (2)**
 - **Add patient to Favourites (select to add to favourite, select again to unfavourite (3)**
 - **Close the patient record (4)**

3. To view more demographic details, select the **Patient Info** tab at the bottom of the iPad screen

4. The **Patient Details** tab will show by default, select the right hand side to see all of these details and hide the menu
5. Select **Patient Info** to see the menu again and select **Contact Details** and **GP Details** to view.

6. Select **Casenotes** again to view the patients notes

7. To close the patient record, select **Close Patient** on the toolbar
