

Comparing Charts, Forms and Data in ICCA	
<p>Open any chart or form from the left-hand panel of a patient chart</p>	
<p>With your selection open – In the Home tab select Vertical or Horizontal Split</p>	
<p>Vertical duplicates the patient chart side-by-side</p>	
<p>Horizontal duplicates the patient chart on top of one another</p>	
<p>Each section then moves independently – You can select any chart or form within either screen to compare the details/data</p>	
<p>To remove the duplicate window, click your selection again</p>
