MEDIVIEWER - ACCESS VIA AFFINITY

You can access **MediViewer** directly from Affinity using the **MediViewer contextual link** and it will open on the selected patient's record.

Log in to **Affinity,** find your patient and open their record.

Click on the **MediViewer contextual link** which you will find down the left of the patient record.	
MediViewer will open on the selected patient's record.	

Please Note: Reminders & Collections are not available when accessing MediViewer from Affinity.

Click on the **x** to close the patient record.	

You will now be back on the patient's Affinity record.
